

The products in the Mezzo line are the symbiosis of demand and perfection. Combining innovative technology and high quality connectivity, Mezzo cables offer a much appreciated musical performance. They offer a sound reproduction, balance and correctness of the timbres unusual at this affordable level.

POWER - Distributeur

MEZZO - PB8 Schuko

250.00

Aluminum case - Each socket is individually isolated - Contacts - 3x copper bars - 8 Sockets type Schuko - Connection IEC

POWER - Cable

150 cm

MEZZO - PC150 - Swiss

695.00

Plug contacts - Gold plated copper - Conductors - PVC insulated OF copper
Double HF and electromagnetic protection - Plug by Furutec

MEZZO - PC150 - Schuko

695.00

Plug contacts - Gold plated copper - Conductors - PVC insulated OF copper
Double HF and electromagnetic protection - Plug by Furutec

SPEAKER - Cable

247 cm

MEZZO - LS247

1'450.00

Conductors PVC insulated OF copper - Banana 4 mm gold-plated copper with low contact resistance

INTERCONNECT - Cable

83 cm

MEZZO - RCA83

550.00

Conductors PVC insulated OF copper - Double HF and electromagnetic protection - RCA plugs gold plated with very low contact resistance and low capacitance

MEZZO - XLR83

550.00

Conductors PVC insulated OF copper - Double HF and electromagnetic protection - Neutrik XLR plugs with gold-plated contacts

DIGITAL - Cable

83 cm

MEZZO - COAX83

295.00

Conductors rigid core - PVC insulated OFC copper - Double HF and electromagnetic protection - RCA plug gold plated with very low contact resistance and low capacitance

MEZZO - AES83

295.00

Conductors PVC insulated OF copper - Double HF and electromagnetic protection - Neutrik XLR plugs with gold-plated contacts

Actinote cables are characterized by a certain kind of effortless precision. Instruments sound realistic, without any attempt to overplay them. Dynamic reproduction is excellent, perfectly suited to the nature of the message, whether simple or complex. There is no confusion, just fast attacks and airiness. Aria Evo works wonders with both tube and transistor electronics possessing natural timbres.

POWER - Cable		150 cm
	<p>ARIA - PC150 - Schuko</p> <p>Conductors rigid core - PVC insulated OF copper - Contacts - Gold plated copper - Double HF and electromagnetic protection - Plug by Oyaide</p>	1'200.00
SPEAKER - Cable		247 cm
	<p>ARIA - LS247</p> <p>Conductors rigid core - PVC insulated OF copper - Banana 4 mm gold-plated copper with low contact resistance</p>	2'200.00
INTERCONNECT - Cable		83 cm
	<p>ARIA - RCA83</p> <p>Conductors rigid core - PVC insulated OF copper - Double HF and electromagnetic protection - RCA plugs gold plated with very low contact resistance and low capacitance</p>	995.00
	<p>ARIA - XLR83</p> <p>Conductors rigid core - PVC insulated OF copper - Double HF and electromagnetic protection - Neutrik XLR plugs with gold-plated contacts</p>	1'100.00
DIGITAL - Cable		83 cm
	<p>ARIA - COAX83</p> <p>Conductors rigid core - PVC insulated OFC copper - Double HF and electromagnetic protection - RCA plug gold plated with very low contact resistance and low capacitance</p>	550.00
	<p>ARIA - AES83</p> <p>Conductors PVC insulated OF copper - Double HF and electromagnetic protection - Neutrik XLR plugs with gold-plated contacts</p>	550.00
DIGITAL - Cable		130 cm
	<p>ARIA - LAN130</p> <p>Conductors four pure single-strand OFC copper - HF and electromagnetic protection - Telegärtner Ethernet plugs with gold-plated contacts</p>	850.00

Price CHF : 8.1% VAT included

Actinote Sinfonia cables are more sophisticated in their design, providing greater transparency. The beauty of the timbres becomes exceptional. A clearer resolution of micro-details is perceived. A true communication of the artist's emotions to the listener. The shielding used to make the Sinfonia cable significantly reduces electromagnetic interference emissions. It is the patented combination of fine copper wires and polyester monofilaments that provides an excellent level of electromagnetic shielding.

POWER - Cable**150 cm****SINFONIA - PC150 - Schuko****3'300.00**

Composed of three conductor cables - Braided strands made up of a large number of strands of enameled copper wire - Plug contacts - Gold plated copper - Double HF and electromagnetic protection - Plug Schuko by Oyaide

SPEAKER - Cable**247 cm****SINFONIA - LS247****4'300.00**

Braided conductors made of a large number of strands of copper wire - Double HF and electromagnetic protection - Banana 4 mm gold-plated copper with low contact resistance

INTERCONNECT - Cable**83 cm****SINFONIA - RCA83****1'450.00**

Braided conductors made from a large number of strands of enameled copper wire - HF and electromagnetic protection - RCA plugs gold plated with very low contact resistance and low capacitance

**SINFONIA - XLR83****1990.00**

Braided conductors made from a large number of strands of enameled copper wire - HF and electromagnetic protection - Neutrik XLR plugs with gold-plated contacts

DIGITAL - Cable**83 cm****SINFONIA - COAX83****800.00**

Braided conductors made from a large number of strands of enameled copper wire - HF and electromagnetic protection - RCA plugs gold plated with very low contact resistance and low capacitance

**SINFONIA - AES83****990.00**

Braided conductors made from a large number of strands of enameled copper wire - HF and electromagnetic protection - Neutrik XLR plugs with gold-plated contacts

DIGITAL - Cable**130 cm****SINFONIA - LAN130****1'200.00**

Conductors four pairs of twisted pure OFC copper wires - HF and electromagnetic protection - Telegärtner Ethernet plugs with gold-plated contacts
